PROFESSIONAL SUMMARY

Analytical and detail-oriented graduate with a BSc in Entrepreneurship and skills in Microsoft Excel, Power BI, SQL and Python. Experienced in data cleaning, research, KPI reporting and dashboard development. Able to organize information, analyze trends, communicate findings and support data-informed decision-making. Best Graduating Student in data analytics training (2025). Brings additional experience in operations coordination, expense tracking and stakeholder communication.

CORE SKILLS

Data Analysis: Data cleaning, validation, transformation, exploratory data analysis, trend analysis, KPI tracking and data interpretation.
Research and Reporting: Information gathering, report preparation, data visualization and communicating findings.
Technical Tools: Microsoft Excel, Power Query, Power BI, SQL, Python (Pandas, machine learning, NLP), Tableau and Google Sheets.
Business and Operations: Expense tracking, scheduling, project coordination, stakeholder communication and administrative support.
Professional Competencies: Analytical thinking, problem-solving, attention to detail, adaptability, teamwork and willingness to learn.

PROFESSIONAL EXPERIENCE

Data Analyst — Othello Institute of Technology, Lagos, Nigeria
March 2025 – February 2026

- Developed interactive Power BI dashboards and KPI reports to improve visibility into business performance and decision-making.
- Queried, cleaned, transformed and analyzed datasets using SQL and Python (Pandas) to identify trends and generate actionable insights.
- Presented analytical findings through dashboards, reports and visualizations to make business information easier to interpret.
- Received the Best Graduating Student award in 2025 in recognition of performance in data analytics training.

Event Coordination & Operations Support — IvoryLuxe Events
January 2026 – September 2026

- Maintained event schedules using Google Sheets to organize timelines and coordinate wedding-planning activities.
- Coordinated vendors and followed up on arrangements to support event preparation and execution.
- Recorded and categorized event expenses for management review, supporting expense tracking and financial visibility.
- Coordinated communication between clients and designers, and led ushers during event-day logistics.

Receptionist — TM Salon, Lagos, Nigeria
2020 – 2021

- Welcomed clients, responded to enquiries and provided front-desk support to maintain a professional customer experience.
- Assisted with appointment scheduling, administrative tasks and record keeping to support daily operations.

SELECTED DATA ANALYTICS PROJECTS

- **US Sales** and **Pizza Sales** **Dashboards** (Power BI, DAX): Analyzed sales by region, product and time period; identified top-selling items, peak hours and revenue trends.
- **Coca-Cola Sales Analysis & Dashboard** (Excel, Pivot Tables): Identified the top profitable region and built an interactive KPI dashboard.
- **HP Nigeria Sales Dashboard** (Excel): Built a dashboard to track sales performance, trends and KPIs across regions.
- **Super Store Sales Dashboard** (Tableau): Analyzed sales across regions, categories and time periods.
- **Fraud Detection Model** (Python, Pandas, Scikit-learn): Explored fraud detection and identified potentially suspicious patterns.
- **Customer Segmentation** (Python, Scikit-learn): Used clustering techniques to group customers based on patterns in their data.
- **NLP Sentiment Analysis** (Python, NLTK, Pandas): Explored sentiment patterns in text data.
